INTRODUCTION

We welcome you in Modena (Italy) for this exclusive event, designed only for 5 participants. You will get the chance to spend a whole week alongside our skullbase team, learning from clinical cases, from live surgery sessions and step by step cadaver dissections. Each of you will be endowed with a single cadaveric specimen head so as to practice almost every lateral skull base surgical approach. You will also take part in the pre and post operative evaluations of the patients affected by lateral skull base lesions and attend the multidisciplinary meetings with our team of ENTs, neuroradiologists and neurosurgeons. Social events and dinner lectures are also an integral part of our program, in order to enjoy our traditional food in our historic city. We hope you will enjoy this immersive experience, our staff is looking forward to meet you!
